## About the MBDs

In 1996, the Maastricht Business Days (MBDs) were initiated and have since grown into a bi-annual recruitment event. The MBDs are known as the largest and most prestigious recruitment event in the southern Netherlands, organised by and for students of Maastricht University School of Business and Economics. The recruitment event provides a unique opportunity for both students and companies to get to know each other in an international and professional setting. Various program options such as workshops, student chats, and a variety of informal activities enable both sides to get acquainted and discover mutual interests.

The event has earned a great reputation among all parties involved and offers students an excellent platform where they can "Unlock Their Potential" so that they can initiate their future career paths.

You can manage projects but not people. Leading is a completely different task: it means making sure that every single employee can grow beyond themselves. That's why leadership means trusting and supporting a person in their entirety – their talents and their personality. It sounds forward thinking – and that's exactly what it is.
